Sheriff, Davison County ..... **Dial 3411 or Dial "O" Operator**

FEDERAL BUREAU OF INVESTIGATION—For telephone number or address of nearest office ..... **Dial 113**

(You may ask the operator for assistance in placing emergency calls.)

★

CALLS TO TELEPHONE COMPANY

For Assistance in Calling ..... **Dial "O" Operator**

For Numbers Not Listed in the Directory ..... **Dial 113**

To Make Long Distance Calls ..... **Dial "O" Operator**

To Report a Telephone Out of Order ..... **Dial 114**

For Business With the Company ..... **Dial 601**

(Copyrighted 1950 Northwestern Bell Telephone Co.)

USE OF THE DIAL TELEPHONE

After obtaining the correct number from the directory, remove the receiver. Almost immediately a steady humming sound, called the dial tone, will be heard which lets you know that the central office equipment is ready to receive your call.

It is necessary to hang up the receiver and get the dial tone again before making another call.

HOW TO DIAL

Dial each figure of the number you are calling in the order shown in the telephone directory.

Take, for example, the dialing of telephone number 2628. After hearing the dial tone, place the forefinger firmly in the dial opening through which the figure "2" is seen. Turn the dial around in a clockwise direction until your finger strikes the finger stop. Remove your finger and let the dial return to its normal position without forcing or retarding its movement. The remaining figures "6," "2" and "8" may be dialed in a similar manner.

If you make a mistake while dialing or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

SERVICE SIGNALS

Ringing Signal—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

Busy Signal—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

No - Such - Number-Signal — This is a "buzz-buzz (pause) buzz-buzz (pause) buzz-buzz sound and indicates that a mistake has been made in dialing and that there is no such number as the one dialed. When this signal is heard it is best to refer to the directory number, and then dial the complete number again.

If you do not hear one of these signals within a reasonable length of time, hang up the receiver for a few seconds and dial the complete number again. If, after a second attempt, you do not hear a signal or receive an answer dial "O" and report the condition to her.

USE OF PARTY LINES

Always listen to make sure the line is not in use before dialing. If you hear someone talking or hear successive clicks, indicating the line is in use, please hang up and make your call a little later. If when you attempt to make a call you do not hear the dial tone and no one seems to be using the line, inquire if it is being held by some other subscriber. If no one is holding the line hang up the receiver for a moment and then make another attempt.

TO CALL ANOTHER PARTY ON YOUR LINE

On Rural Lines—Dial the number listed in the directory and when you hear the busy signal, hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing, the person called is on the line and you may start the conversation.

On Town Party Lines—Dial the special number (not the number listed in the directory) for that party. After dialing this number in the usual manner, hang up the receiver of your telephone and the bell of your telephone and the bell of the called telephone will ring. When the telephone being called is answered, your bell will stop ringing and you may then remove the receiver of your telephone and start the conversation. If you do not know the special number, dial "O" Operator and she will assist you.

SOME TELEPHONE SUGGESTIONS

Obtain the correct telephone number from the directory before making a call. If it is not listed, call "Information."

Speak slowly, clearly and distinctly into the telephone, with your lips close to the mouthpiece.

Answer your calls promptly. Failure to do so may result in the loss of a message. Giving your name or the name of your firm when answering, identifies you and saves time.

Keep the receiver on the hook when the telephone is not in use or your line will be out of order.

Every reasonable precaution is taken to avoid errors and omissions in a telephone directory, but if they do occur the Company's liability for them, as provided in its Tariff, is limited to one-half of the charges for the service affected until a new directory is issued.

Please do not attach any "gadgets" to your telephone; they are likely to interfere with service. In the interest of good telephone service, the telephone company does not permit attachment or connection of any unauthorized equipment or devices and reserves the right to remove them.

If you have a special problem of telephone service, please call our Business Office and we shall be glad to assist you in meeting it.

LONG DISTANCE SERVICE

TO MAKE A LONG DISTANCE CALL

When you wish to make a long distance call, please dial "O" for Operator. When she answers, give her the name of the town you are calling, the telephone number if you know it, otherwise the name and address of the residence or business firm being called. If you wish to talk to a specified person, also give the name of that person.

STATION-TO-STATION CALLS

A Station-to-Station call is one on which you ask to talk with anyone available at the telephone called and do not request a specific individual, a department or an extension telephone reached through a private switchboard.

Charges begin when the number called has answered, and are based on an initial period of three minutes, except to points for which the rate is 30c or less, where the initial period is five minutes. Station-to-Station calls cost less than Person-to-Person calls.

PERSON-TO-PERSON CALLS

A Person-to-Person call is one on which you ask for a certain person, or a department or extension telephone reached through a private switchboard. Charges begin when the calling person speaks to and receives a response from the called person, and are based on an initial period of three minutes.

REDUCED NIGHT AND SUNDAY RATES

Every night from 6 p. m. to 4:30 a. m. and all day every Sunday, there are reduced rates for both Station-to-Station and Person-to-Person calls. These rates are lower than corresponding week-day rates on calls for distances for about 50 miles or more.

REVERSAL OF CHARGES

If you wish the person you are calling to pay the charges, please notify the operator when you place the call. This may be done on both Person-to-Person and Station-to-Station calls without extra cost, except on Station-to-Station calls of 24 cents or less for the initial period which take a higher rate when sent collect.

LONG DISTANCE RATES

If you wish information about long distance rates, call "Long Distance." If you wish to know the cost of a call at the close of the conversation, notify the long distance operator at the time you place the call.

TELEPHONE RECORDING SIGNAL

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder, the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

"You bet I try to be a good 'party-line neighbor.' *It pays!*"

"Sharing a party line is like sharing anything else. Courtesy can do wonders! That's why I try to space my calls well apart. The others on the line give me a break too . . . so *everybody* on our line gets a chance to use the telephone as much as needed."

Facts About Mitchell

GROWTH

Mitchell has enjoyed a steady and healthy expansion to its present census estimates of over 12,000. One of the natural reasons for this growth is its location in the center of what the U. S. Department of Agriculture describes as "one of the most fertile and diversified productive areas in the United States."

TRADE CENTER

The healthy economic picture in Mitchell has been chiefly due to its retail business, as it serves a large trading area comprised of fourteen counties, and includes a population of approximately 115,000.

Its geographical position has also favored an ever increasing wholesale business which today comprises some sixty wholesale establishments.

INDUSTRY

Although Mitchell is not primarily an industrial center, the processing of livestock and agricultural products has created sizeable payrolls. Included among the manufacturers and processors are two packing plants, two creameries, four produce houses, six dairies, six hatcheries and one of the nation's larger egg drying plants.

TRANSPORTATION

Mitchell is located on U. S. Highway 16, one of the main east-west highways across the Middlewest. .It is also on State Highway 37, giving hard surface roads in all directions. .It is served by three bus lines and two railroads, the Chicago, St. Paul, Minneapolis and Omaha, and the Chicago, Milwaukee, St. Paul and Pacific, being a division point on the latter. Air Service is provided by Midwest Airlines; Mitchell's Municipal Airport has two concrete runways 6,700 feet in length.

EDUCATION

The public school system in Mitchell, includes four grade schools, a junior high and a senior high. Augmenting this educational system is Notre Dame Academy, a parochial school which also includes a Junior College. Dakota Wesleyan University, an accredited four-year college, is also located in Mitchell. .On its campus will soon be erected the gallery-museum-library of the Friends of the Middle Border. .Mitchell Business College offers courses for those interested in this field.

CHURCHES - HOSPITALS

Sixteen churches representing fourteen denominations provide Mitchell residents spiritual guidance in a church of their choice.

Two well-equipped modern hospitals, the Methodist State and St. Joseph's have caused Mitchell to be recognized as a medical center.

RECREATION

Mitchell is known as being in the "heart of the pheasant country". This is based on a recent survey and roadside census, which showed that Mitchell is in the very center of the most thickly pheasant populated area. Lake Mitchell, on the outskirts of the city, provides facilities for fishing, swimming and boating. Five city parks offer play grounds and accommodations for outings. A baseball field is kept busy with a supervised program for all ages, as well as league ball. Among other facilities are two golf courses and a recreation center for teen agers.

MITCHELL, S. D.

WORLD'S ONLY CORN PALACE

The title of this structure, the World's Only Corn Palace, is merited by its unique decoration and design. The entire exterior and portions of the interior are covered with corn—red, blue, yellow and white—arranged in geometrical patterns and outlined with grasses and grains. In a series of panels, there are pictures, composed entirely of corn, each depicting a theme, such as wild game, hunting or pioneer history. Along its roof are moorish minarets and towers, which with their bright colors, add greatly to the design and appearance of a palace.

DECORATION

The Corn Palace is freshly redecorated each year during Indian Summer at an approximate cost of $15,000. It requires between two and three thousand bushels of corn, all of which appears in its natural color. The individual cobs, with the corn on, are sawed lengthwise by small power saws, the halves then nailed, flat side in, to wooden panels which are fastened to the brick walls of the building.

HISTORY

Behind the Corn Palace is a history dating from pioneer days, as the original Corn Palace was constructed in 1892. This building, like the second, constructed in 1905, was built of wood and covered entirely by corn. In each case, the cost of the building and the entertainment furnished was underwritten by business men. The present structure, which is almost a half block square and seats approximately 5,000 people, was built in 1921.

CORN PALACE FESTIVAL

The outstanding event in connection with the Corn Palace is the annual Festival held the last week in September. This celebration brings to Mitchell some of the top talent from Hollywood and Broadway, and features a "big name band". Twice a day, thousands of people from all over the middlewest throng into the Corn Palace to enjoy the latest and best in entertainment. To augment this show, nine blocks of the Main Street are blocked to all traffic and turned into a street carnival. In addition to the regular carnival entertainment, one may also enjoy almost every type of educational and recreational exhibit imaginable.

YEAR-ROUND ACTIVITY

The Corn Palace is more than the home of the Festival or a point of interest for sight seers, it is a practical structure adaptable to many purposes. It is in almost constant use for dances, musical and stage shows, conventions, exhibits, basketball games, meetings and other events of civic interest.

NEIGHBORLINESS PAYS

Few are the places where courtesy and willingness to co-operate pay off so richly as on party-line telephones. If you have this service, you've probably found it out for yourself.

The more neighborly those who share a telephone line, the better all hands fare.

James A. Pipes, Prop.

Mr. Architect
Mr. Contractor

An important feature of modern homes is concealed telephone wiring with telephone outlets in rooms where portable telephones can be plugged in. The cost of installing concealed service entrance and wall conduit is low if included when the home is being built or remodeled.

We will be glad to help you plan for modern home telephone facilities. Just call our Business Office.

Two Friendly Telephone Habits

•

Quick

to answer when the bell rings.

Slow

to hang up when you call someone who doesn't immediately respond.

In calling others, remember that the called person may be almost there — so wait a few seconds longer and save another call.

EMERGENCY CALLS

Fire Department ..... **Dial 2331**

If Busy or No Answer, Dial "O" (Operator)

Sheriff, Hanson County ..... **(Toll Call) Dial "O" Operator**

Ask For Alexandria 99

Federal Bureau of Investigation—For telephone number or address of nearest office ..... **Dial "O" (OPERATOR)**

(You may ask the operator Dial "O" for assistance in making emergency calls.)

CALLS TO TELEPHONE COMPANY

Assistance—For assistance in calling
Information—For numbers not listed in directory
Long Distance—To make long distance calls
Repair Service—To report a telephone out of order
Business Office—For business with the Company

Dial "O" (Operator)

PAYMENTS OF BILLS FOR SERVICE

Payment of bills for service may be made at the Fulton State Bank

To call Mitchell, dial "O" (Operator)

USE OF THE DIAL TELEPHONE

How to Dial

After obtaining the number from the directory, listen for the dial tone which is a steady humming sound. Then dial each figure of the number in order.

Take for example number 3841. After hearing the dial tone, place the finger in the dial opening where "3" is seen. Turn the dial around until the finger strikes the stop. Release the dial and let it run back freely to its starting place. The other figures, "8", "4", and "1" should be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

Service Signals

Ringing Signal—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

Busy Signal—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

Use of Party Lines

If you do not hear the dial tone, inquire whether the line is in use. You may hear some one speak or dial. Replace the receiver and unless some one is using the line you should hear the dial tone when you next listen.

To Call Another Party on Your Line

Dial the number and when you hear the busy signal, hang up the receiver. Your bell and the called bell will ring. When your bell stops ringing, the person called is on the line and you may start the conversation.

YOUR DIAL TELEPHONE GIVES
Speedy, Dependable, 24-Hour Service

Dial telephone service is just as speedy, accurate and reliable after midnight and on holidays and Sunday as at any other time.

To reach "LONG DISTANCE", just dial "O".

NORTHWESTERN BELL TELEPHONE COMPANY

COURTESY

We want your telephone service to be quick and good and cheap, but there is more to it than that We want it to be courteous, too

No matter what the occasion there is always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way It is one of the fine traditions of the telephone business

NORTHWESTERN BELL TELEPHONE COMPANY

OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

Operating under this policy, the Company has a three-fold obligation as follows:

Our obligation to the public is to provide pleasing and constantly improved and broadened service, which is as free as possible from errors, imperfections and delays, and to furnish such service at the lowest practicable charges.

Our obligation to employees is to pay wages that are in all respects fair and just; to provide safe and agreeable working conditions, and to deal fairly and considerately with each individual and group.

Our obligation to investors is to provide every reasonable safeguard for the money thousands of men and women have invested in the business and to operate the property so that it will yield a fair return.

NORTHWESTERN BELL TELEPHONE COMPANY
